Table of Contents

Anesthesia

Andrew Claude, DVM, DACVAA

Current fluid therapy topics and recommendations during anesthetic procedures.....	1
Post-anesthesia complications with the small animal patient.....	4
Neonatal, pediatric, and geriatric anesthesia	6
Anesthesia ventilators and ventilation techniques.....	9
Complications and troubleshooting during anesthesia and your best anesthetic monitoring options.....	11
Analgesic considerations in cats.....	13
Acute pain management: Local and regional anesthesia.....	15
Acute pain management: Pharmaceutical options.....	17
Learn then Earn: Pain medication: A win-win situation for you, your patients, and your clients.....	19

Avian Medicine

Lauren Powers, DVM, DABVP (Avian; ECM)

Avian respiratory medicine.....	20
Avian ophthalmology.....	23
Antimicrobial therapy for birds	26
The silent killer: Atherosclerosis in pet birds	29
Updates on avian analgesia.....	32
Avian reproductive tract disorders.....	36
Introduction to backyard poultry.....	39
Diseases of backyard poultry.....	42

Behavior

Melissa Bain, DVM, DACVB, MS

Medical problem? Behavior problem? How about both!.....	45
Myth busters: Common misconceptions in behavior.....	47
Danger! Danger! Human-directed aggression in dogs	49
I love you too much: Helping dogs with separation anxiety	52
Behavior triage: How to handle the behavior 'emergency'	54
Behaviorally preparing your patients for medical procedures	57
Overview of the behavior of backyard livestock.....	60
Learn then Earn: "I'm bored": Everyday things to enrich our pets' environment.....	62

Jeannine Berger, DVM, DACVB, DACAW, CAWA

Equine self-mutilation syndrome: Behavior or medical?.....	65
Mind games for competitive horses	67
Unspoiling spoiled horses.....	69
BYO behavior cases.....No proceedings required	
Asking the right questions: Taking a behavior history	71
How I treat about anything: Behavior treatment plan	73
Rambunctious, jumpy, mouthy dogs: The quick fix for RJM dogs	75
Feline dictionary: Understanding feline body language.....	78
Dealing with the shelter CAT-astrophy: Behavior problems of the shelter cat.....	81
What to do about shelter cats with inappropriate urination.....	84

Canine Sports Medicine

Don Hulse, DVM, DACVS

Diagnosing forelimb lameness in dogs.....	86
Treating forelimb disorders in dogs.....	90
Diagnosing rear limb disorders in dogs	94
Treatment of rear limb disorders in dogs	94

Don Hulse, DVM, DACVS and

Sandra Hudson, BS, MBA, CCRP

Rehabilitation of the small dog following surgery.....	100
Managing osteoarthritis in dogs.....	103

Cardiology

Barret Bulmer, DVM, MS, DACVIM

Wrapping your head around the pericardium: A review of pericardial disease	106
Radiographic review of cardiovascular disease	108
Comprehending common congenital cardiac disorders: Examination findings, diagnostics, and treatment	110
The latest on managing mitral valve disease.....	113
Dilated cardiomyopathy: Boxers and Dobies, oh my!.....	115
A unified perspective on managing congestive heart disease.....	117
Reacquainting yourself with the ECG and treatment of arrhythmias.....	119

Clinical Pathology

Casey LeBlanc, DVM, PhD, DACVP

Getting the MOST out of your serum chemistry panel and urinalysis	122
Getting the MOST out of your serum hematology data.....	125
Why you should ALWAYS look at a blood smear.....	127
Diagnostic cytology of cutaneous and subcutaneous lesions.....	129
Cytopathology and related diagnostic tests: Pitfalls, myths, and tips.....	132
Serum chemistry panel discussions.....	134

Clinical Pharmacology

Duncan Ferguson, VMD, PhD, DACVIM, DACVCP

Evidence-based therapy: Truth or consequences?.....	139
Principles of antimicrobial usage in small animal practice.....	142
The best use of NSAIDs.....	146
Glucocorticoid therapy in small animal practice: What do we really know?	149
Glucocorticoids +/- NSAIDs: Why, why not, and washout	152
Expert2: The Power of Interaction	
Future shock of antimicrobial resistance: Is antibiotic use in small-animal practice at risk?.....	155
Infectious disease: An interactive clinical pharmacology case discussion.....	156
Endocrine disease: An interactive clinical pharmacology case discussion.....	160

The Right Dose for Every Condition, Every Patient, Every Time

Accuracy, Engineered by Companion[®]

Meet the Future of Laser Therapy

The NEW feature-rich Companion CTX combines advanced features with re-designed approaches to dosing that give you an unmatched level of versatility and control over your treatments. Featuring 0.5 to 15 watts of therapeutic power and three different dosing solutions, the CTX is the perfect platform for the new, intermediate, and expert therapy laser user.

See the new CTX in Booth 303

From Eureka to Action

Why and How to Create a Fear-Free Practice

Dr. Marty Becker is on a mission to make Fear-Free veterinary visits a reality for pets. He's outspoken about the need, and his message is eye-opening. In this symposium, you'll learn how to use Fear-Free concepts to:

- put animals and owners at ease
- deliver a higher level of compassionate care
- earn repeat visits.

You will also receive a copy of the new brochure "*Top 10 Tools for Creating a Fear-Free Practice.*"

Marty Becker, DVM

Fear-Free tools to transform patient interactions, boost visits, and enhance your practice.

Richard LeCouteur, BVSC, PhD, DACVIM (Neurology), DECVN

The science of fear in animals: It's real. It's damaging. It's our responsibility.

Lisa Radosta, DVM, DACVB

Fear-Free techniques: Clinical behavioral evidence that they work.

FEAR-FREE PRACTICE SYMPOSIUM

Saturday, April 25, 2015

Same loyal partner

Now bringing you even more

As the second-largest animal health pharmaceutical company in the world, Elanco is better positioned than ever to deliver more innovation and value to you

The acquisition of Novartis Animal Health more than doubles the number of quality products available to you from Elanco. It also enables even greater investment in an already proven approach to bring you new innovations. It expands our R&D capabilities and pipeline breadth. Best of all, it helps us fulfill our mission to support you in helping pets live longer, healthier, higher-quality lives.

READY for WHAT'S NEXT

Covering more of what you treat every day.

Are your clients ready for anything? With VPI®, they can choose the pet health insurance option that fits their lifestyle and their budget. Your clients will appreciate that VPI covers exam fees, and they only need to meet a single, annual deductible. Plus, VPI-insured clients visit their veterinarians 50% more often, helping to ensure more healthy patients and a financially healthy practice.*

Help your clients be ready for whatever comes next. Recommend pet health insurance from VPI. Learn more at www.vpihealthypractice.com or call 866-VET-4VPI (866-838-4874).

Ready for anything.

Nationwide®
is on your side

*When compared to clients without pet insurance. Source: VPI Consumer Awareness & Usage Study 2013.

Insurance plans are offered and administered by Veterinary Pet Insurance Company in California and DVM Insurance Agency in all other states. Underwritten by Veterinary Pet Insurance Company (CA), Brea, CA, an A.M. Best A rated company (2013); National Casualty Company (all other states), Madison, WI, an A.M. Best A+ rated company (2014). ©2014 Veterinary Pet Insurance Company. Veterinary Pet Insurance, VPI and the cat/dog logo are service marks of Veterinary Pet Insurance Company.
